| Place Value                         | 2.NBT.A Understand place value.  
2.NBT.B Use place value understanding and properties of operations to add and subtract.  
4.NBT.A Generalize place value understanding for multi-digit whole numbers.                                                                                                                                                                                                                             |
| Problem Solving and Computational Application | 2.OA.A Represent and solve problems involving addition and subtraction.  
2.OA.B Add and subtract within 20.  
2.OA.C Work with equal groups of objects to gain foundations for multiplication.  
2.NBT.B Use place value understanding and properties of operations to add and subtract.  
2.MD.C Work with time and money.  
3.OA.A Represent and solve problems involving multiplication and division.  
3.OA.B Understand properties of multiplication and the relationship between multiplication and division.  
3.OA.D Solve problems involving the four operations, and identify and explain patterns in arithmetic.  
3.MD.A Solve problems involving measurement and estimation.  
4.MD.A Solve problems involving measurement and conversion of measurements.                                                                                                                                                                                                 |
| Money                               | 2.OA.A Represent and solve problems involving addition and subtraction.  
2.OA.B Add and subtract within 20.  
2.MD.C Work with time and money.  
3.MD.A Solve problems involving measurement and estimation.  
4.MD.A Solve problems involving measurement and conversion of measurements.                                                                                                                                                                                                                             |
| Time and Measurement                | 2.OA.A Represent and solve problems involving addition and subtraction.  
2.OA.B Add and subtract within 20.  
2.MD.C Work with time and money.  
3.NF.A Develop understanding of fractions as numbers.  
3.MD.A Solve problems involving measurement and estimation.  
4.MD.A Solve problems involving measurement and conversion of measurements.  
6.NS.C Apply and extend previous understandings of numbers to the system of rational numbers.                                                                                                                 |

**Key:**
OA = Operations & Algebraic Thinking; NBT = Number & Operations in Base Ten; NF = Number & Operations–Fractions; MD =
